Guard Door Protection

for Standard-Knapp Model 930 and 940 Case Packers

Safeguarding Package for your Case Packer

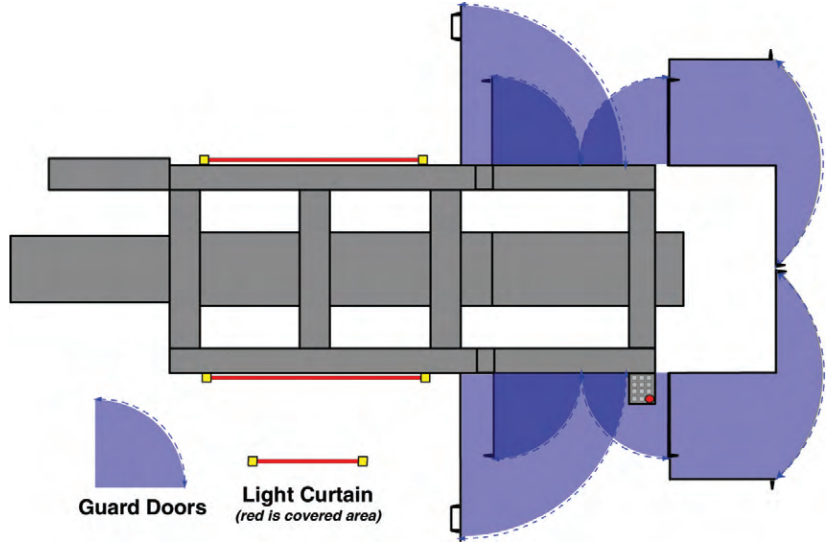

Standard-Knapp can retrofit your model 930 or 940 case packer with an OSHA-compliant guard door package. This package has been designed to increase operator safety while maintaining machine efficiency. See-through lexan guard doors and light curtains enable unobstructed view and safe operation. This upgrade ships pre-assembled and can be installed in the field.

RFID safety interlocked guard door switches stop machine when opened

Light curtains enable quick access and protection

RFID Protection

Guard doors are equipped with RFID safety interlocked switches to immediately stop machine operation if any door is opened.

Light Curtain

Light curtains ensure that the machine stops if a designated area is crossed.

Preassembled Installation

All doors and handles are pre-hung for quick installation and proper alignment. Unit is simply bolted to the machine.

Quality Fit and Finish

Proudly manufactured in the U.S.A.
